RE: Follow-Up to March 7 Metro Meeting

-- **Copies of 104(e) Letters to Maurice Mitts:** I have quickly reviewed the 104(e) responses you provided to determine whether we can release them to Maurice Mitts. With the exception of of the one tagged with a "CBI" post-it, all documents can be transmitted to Mr. Mitts. Please include in the package a copy of the 104(e) letters we sent out (It appears that many of them have not been date stamped; are these originals?)

-- **104(e) Follow-Up Letters to Non-Responders:** Let's try to get the threat letters out shortly to the eleven non-responders you alluded to at our meeting. Please make sure I'm on the concurrence chain.

-- **Additional Meeting(s) with Maurice Mitts:** Please keep me informed on the status of your attempts to get access to the remaining Booz Allen folks who participated in the development of the report. Let's also talk about the manner and timing of Larry Falkin's possible participation in any such future meeting. I think we ought to have a "pre-meeting" with all persons concerned to speak about some of the "quality control," "data entry," and "double counting" issues raised in today's meeting as well as the "mechanical history" (i.e., what did the work plan require, who entered the data, what documents were used to generate the data entered, who supervised data entry, who developed the codes, what do the codes mean, etc.)

Don't hesitate to call with questions.
